Web Developer

Summary: A passionate developer who delivers innovative and visually compelling solutions.

Experience

Unified Mentor – Internship
Web Developer

- Created projects like GYM Management System, Todo List, Personal Portfolio to work as an intern in the company.
- GYM Management system: Developed a comprehensive Gym Management System to streamline the operations of gyms by **digitizing receipt management** and **improving communication** between gym owners and members.
- This system **eliminates the risk** of losing confidential receipts by securely storing them in a **digital format**. It includes features that **notify gym members** of their fee dues and alert gym owners of received payments, **enhancing financial transparency** and user engagement.

Projects

Typing Skill Enhancement Portal Built with ReactJS and Tailwind CSS.

- Recently I have developed a typing website designed to help users improve their typing speed and accuracy.
- This platform allows users to **track their typing speed** and provides valuable feedback for those who are beginners or looking to enhance their **typing skills**.
- The website offers various tools and exercises to help users **type faster** and **more efficiently** over time.

Skills

Html5, Css3, Javascript, ReactJs, React-Router-Dom, Tailwind CSS, Git, Github, Adobe Photoshop, Illustrator.
