**Linkedin:** Linkedin/Shreyash-Dhulrao
**Github:** Github/Shreyash-Dhulrao

**Summary:** Innovative and passionate frontend developer creating visually compelling, responsive web applications focused on performance and user experience

## Work Experience

**Web Developer, Unified Mentor,(Internship)**                    June – July 2024

Created projects like *GYM Management System, Todo List, Personal Portfolio* to work as an intern in the company.

1. Developed a comprehensive Gym Management System that digitized receipt management, securely storing over 1,000 receipts and enhancing communication between gym owners and members to improve operational efficiency in fitness facilities.
2. This system eliminates the risk of losing confidential receipts by securely storing them in a digital format.
3. It includes features that notify gym members of their fee dues and alert gym owners of received payments, enhancing financial transparency and user engagement.
## Projects

**Typing Skill Enhancement Portal Built with ReactJS and Tailwind CSS.**

1. Provides real-time feedback on the speed, accuracy, and progress, allowing users to monitor their development over time.
2. Offers personalized insights and recommendations, making it suitable for beginners as well as experienced typists looking to enhance their skills.
3. Includes a variety of exercises, challenges, and the drills that help users gradually increase both speed and efficiency while typing.

**Video Calling Web Application using ZEGOCLOUD.**

1. Developed a feature-rich, real-time video calling web application using ZEGOCLOUD, ensuring high-quality audio and video streaming.
2. Implemented responsive design for seamless user experience across devices and optimized application performance to handle multiple concurrent users.
3. Integrated interactive features, including screen sharing and chat functionalities, enhancing collaboration and user engagement.
4. Employed React JS for a dynamic front-end experience, leveraging Firebase for user authentication and data management.

## Skills

**FrontEnd:** HTML, CSS, Javascript.                    **Library:** React, Redux, Firebase.
**Framework:** Tailwind CSS, Bootstrap.                    **Version control:** Git, Github.
**Extras:** Adobe Photoshop, Illustrator.

## Education

**BTech:** *Computer Science And Engineering*                    Jan 2020 – May 2024
SVERI College Of Engineering, Pandharpur

## Courses

React js – Dream Technology                    2024
Web Development – Dream Technology                    2023
Adobe Photoshop – Udemy                    2023
